Magic Tree House Fact Tracker: Mummies and Pyramids
Fact Tracking with Jack

Being creative with the facts (a mini-research project)

This activity is a way to introduce various text features and integrate new vocabulary into a research report

MATERIALS NEEDED
Mummies and Pyramids Fact Tracker
Copy of Jack’s Facts notebook page (enclosed)
Crayons, markers or colored pencils

DIRECTIONS:

• After reading and discussing the Mummies and Pyramids Fact Tracker, either in guided reading time or as an independent activity, the students will be ready to choose and share their favorite parts of the book.
• Tri-fold the Jack’s Facts notebook page like a brochure with the writing showing on top.
• First column – The students write three of their favorite facts next to the WOW, UNBELIEVABLE, and INTERESTING bullets on the page. Model how they should write “in their own words”.
• Middle column – The students draw a diagram, illustration, or map of their choice using the Fact Tracker as a reference. Include a caption.
• Last column – The students make an acrostic poem. Acrostic poems are a creative way to show a topic and details. The students choose a favorite topic idea from the Fact Tracker and write it in all capital letters vertically on the left. Each letter in the topic word begins another vocabulary word which is a detail that is written horizontally to the right. (See the answer key for an example)
IDEAS FOR NEXT STEPS (OPTIONAL)

- Collect a “Jack’s Facts” for each of the four Fact Trackers in the cluster and store in THE BACKPACK (from the Cluster lessons).
- Put them on an “O” ring and challenge the students to see how many they can collect.
- Challenge the students to turn the acrostic poem into a paragraph
- Challenge the students to turn the diagram, illustration, or map into a paragraph
- Use this mini-research report as a springboard to a more in-depth research report.
